**Join us for an evening that explores the essence of traditional medicine - diagnosis, spirit and healing.**

**We have brought together three incredible, and highly skilled healers from some of the oldest medical systems existing today - Ayurveda, Chinese, Tibetan Medicine.**

**This evening will offer a fascinating discussion and comparison of how these medicines have addressed healing in the past and how they are essential in maintaining health and balance in modern society.**

**We will explore ways to maintain the spiritual essence of healing, and the diagnostic processes that we are each able to apply to our own lives in understanding our conditions and illness.**
